

RECENT NATURAL DISASTER ACTIVITY AND RECOVERY EFFORTS

LONG-SOUGHT SENATE AGREEMENT RENEWS HOPE FOR HISTORIC U.S. CLIMATE ACTION

BY TASHA KOSVINER

Surprise, surprise! Senate Democrats unexpectedly united on a new climate deal. The \$369 billion Inflation Reduction Act would be the biggest climate investment in US history. The proposal seeks to reduce greenhouse gas emissions 40% by 2040 and includes capital and tax credits for climate smart agriculture and wind and solar projects.

BIDEN ANNOUNCES NEW CLIMATE CHANGE PROGRAMS, BUT NO EMERGENCY DECLARATION

BY EMMA NEWBURGER

Climate change is an "emergency," said President Biden, as he laid out executive actions and programs to combat the crisis. Plans include \$2.3 billion in funding to assist communities in preparing for natural disasters, as well as helping to lower cooling costs and establish cooling centers for low-income families. The President is also urging the Interior Department to introduce new wind energy areas in the Gulf of Mexico.

WHAT'S WRONG WITH THE ECONOMY? CLIMATE CHANGE, FOR ONE

BY KATE YODER

Maybe money really does make the world go round. In the newly released book, *Climatenomics*, author Bob Keefe argues that the significant financial impact caused by climate change is leading to real change in Corporate America. Natural disasters are costing the US an average of \$400 million a day and the fallout from rising temperatures is estimated to set the economy back 9% in the next 30 years.

With those numbers in mind, everyone from big companies to President Biden is trying to implement measures to be environmentally friendly whether it be setting up data centers where there is renewable energy available or making the switch to electric vehicles and clean energy.

EUROPEAN WINDSTORMS TOP INTERNATIONAL CATASTROPHE LOSS OF 2022 SO FAR

BY STEVE EVANS

Prepare to be blown away. Three European windstorms tallied \$4.1 billion in losses for the insurance and reinsurance market, which is the largest international catastrophe loss of 2022. Australia's floods came

in second with \$3.7 billion and an earthquake in Japan racked up \$2.7 billion in losses.

SPAIN AND PORTUGAL SUFFERING DRIEST CLIMATE FOR 1,200 YEARS, RESEARCH SHOWS

BY DAMIAN CARRINGTON

It's no bueno for Spain and Portugal where they are currently experiencing the driest climate in 1,200 years, say scientists. The reduction in available water is anticipated to cause serious problems for the agriculture and tourism industries.

PRESIDENT JOSEPH R. BIDEN, JR. APPROVES MAJOR DISASTER DECLARATION FOR MINNESOTA AND NORTH DAKOTA

FEMA FIRE MANAGEMENT ASSISTANCE GRANTED FOR THE OAK FIRE

Help is on the way. The Federal Emergency Management Agency (FEMA) approved federal funding to aid in the recovery from the recent storms and flooding in Minnesota and North Dakota. A Fire Management Assistance Grant was also permitted to help cover firefighting costs for the Oak Fire in California.

Additional Information:

Please consider the Funds investment objectives, risks, and charges and expenses carefully before you invest. This and other important information is contained in the Fund's summary prospectus and

prospectus, which can be obtained by visiting procureetfs.com. Read carefully before you invest. Any investment product, strategy, or product design that is described on the Procure ETF's website may not be suitable for all types of clients.

Investing involves risk. Principal loss is possible. The Fund is also subject to the following risks: Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the funds. Brokerage commissions will reduce returns. Securities of small- and mid-capitalization companies may experience much more price volatility, greater spreads between their bid and ask prices and significantly lower trading volumes than securities issued by large, more established companies. The Fund is not actively managed so it would not take defensive positions in declining markets unless such positions are reflected in the underlying index. Please refer to the summary prospectus for a more detailed explanation of the Funds' principal risks. It is not possible to invest in an index.

Natural Disaster/Epidemic Risk - Natural or environmental disasters, such as earthquakes, fires, floods, hurricanes, tsunamis and other severe weather-related phenomena generally, and widespread disease, including pandemics and epidemics, have been and may be highly disruptive to economies and markets, adversely impacting individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors affecting the value of the Fund's investments. Foreign Investment Risks – Foreign securities are typically more volatile, harder to price, and less liquid than U.S. securities.

This product is neither associated with, nor endorsed by, the Federal Emergency Management Agency.

FEMA ETF is distributed by Quasar Distributors LLC.
