- Flooding devastated Pakistan
- Heat waves affected the US, Middle East and others

How To Invest in Water as Droughts, Shortages Dominate the News

By Myra P. Saefong

With droughts occurring all over the world, water is at the forefront of many investors minds. There are several investment opportunities for those looking to participate in the demand for hydration including water futures, individual companies, or pure play exchange-traded funds. Another option is the **Procure Disaster Recovery Strategy ETF (TICKER: FEMA)** which tracks a portfolio of companies engaged in mitigating and recovering from natural disasters such as droughts. Xylem,* a water technology provider, and American States Water Works,* a public utility company, are both constituents in the **FEMA ETF**.

Get to Know the FEMA ETF Constituents

Each month we profile a company in the **Procure Disaster Recovery Strategy ETF**. This month we are highlighting Clean Harbors.*

Company:

Clean Harbors (TICKER: CLH)

Company Description:

Clean Harbors is one of the top emergency response companies when it comes to disaster services, particularly those involving hazardous materials or chemicals released into the environment such as oil spills. The company has been responding to hurricanes for more than 40 years including Hurricanes Katrina, Rita, Sandy and Harvey.

Services Provided:

- Pre-storm preparation such as removal of materials and equipment rentals.
- Post-storm response such as vacuum services for flooded locations, aerial assessment of damage, and provision of catering, lodging, sanitation, and power services.
- Post-storm recovery such as residential and commercial debris removal; decontamination and disposal services; and cleanup of hazardous and non-hazardous spills from punctured lines to excessive stormwater runoff.

Fund holdings and sector allocations are subject to change at any time and should not be considered a recommendation to buy or sell any security.

Additional Information:

Please consider the Funds investment objectives, risks, and charges and expenses carefully before you invest. This and other important information is contained in the Fund's summary prospectus and prospectus, which can be obtained by visiting procureetfs.com. Read carefully before you invest. Any investment product, strategy, or product design that is described on the Procure ETF's website may not be suitable for all types of clients.

Investing involves risk. Principal loss is possible. The Fund is also subject to the following risks: Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the funds. Brokerage commissions will reduce returns. Securities of small- and mid-capitalization companies may experience much more price volatility, greater spreads between their bid and ask prices and significantly lower trading volumes than securities issued by large, more established companies. The Fund is not actively managed so it would not take defensive positions in declining markets unless such positions are reflected in the underlying index. Please refer to the summary prospectus for a more detailed explanation of the Funds' principal risks. It is not possible to invest in an index.

Natural Disaster/Epidemic Risk - Natural or environmental disasters, such as earthquakes, fires, floods, hurricanes, tsunamis and other severe weather-related phenomena generally, and widespread disease, including pandemics and epidemics, have been and may be highly disruptive to economies and markets, adversely impacting individual companies, sectors, industries, markets, currencies, interest and inflation rates, credit ratings, investor sentiment, and other factors affecting the value of the Fund's investments. Foreign Investment Risks – Foreign securities are typically more volatile, harder to price, and less liquid than U.S. securities.

This product is neither associated with, nor endorsed by, the Federal Emergency Management Agency.

Procure Disaster Recovery Strategy ETF (FEMA) is distributed by Quasar Distributors LLC.
