

The Procure Space ETF® (UFO) Eclipses \$200 Million in Assets Under Management

LEVITTOWN, Pa. — January 8th, 2026 - [ProcureAM](#) today announced the world's first pure-play global [Space ETF® \(NASDAQ: UFO\)](#) surpassed \$200 million in assets under management (AUM)¹, marking a significant milestone for the fund and highlighting growing investor interest in the global space economy. The [Procure Space ETF®](#) experienced a record 2025, with the fund's performance increasing by 67.94%¹ for the year ending December 31st, 2025.

[UFO](#) is the first ETF dedicated exclusively to companies positioned to benefit from the advancement of space-related technologies and services. The fund provides targeted exposure to firms involved in satellite communications, launch services, space exploration, Earth observation, and other space-enabled applications.

Key players and up-and-coming companies within the space sector are constituents in the [Procure Space ETF®](#) including [Rocket Lab*](#), [Viasat*](#), [AST SpaceMobile*](#), [Planet Labs*](#), [Lockheed Martin*](#), [Northrop Grumman*](#), [BlackSky*](#), [Intuitive Machines*](#), and [Virgin Galactic*](#).

As the space sector continues to mature, access to dedicated investment vehicles is a crucial part of how the market supports investor participation. Despite having launched in 2019, [UFO](#) is not available for trading on all financial platforms. Ask your financial advisor how you can get access to this unique investment opportunity. [ProcureAM](#) is open to working with financial advisory firms and platform providers across the U.S. to facilitate equal access to [UFO](#).

"The space sector has become an increasingly important area of investment as government and private companies continue to invest in space capabilities that support global communications, navigation, climate monitoring, and security," said [ProcureAM](#) CEO Andrew Chanin. "Reaching \$200 million in AUM underscores investor confidence in the long-term potential of the space economy and in [UFO](#) as a diversified, transparent way to access that opportunity."

The [Procure Space ETF®](#) seeks to track the performance of the [S-Network Space Index*](#), which is composed of companies that derive a significant portion of their revenues from space-related activities. The fund is designed for investors looking to gain exposure to the expanding space ecosystem without selecting individual stocks.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Funds may be lower or higher than the performance quoted. All performance is historical and includes reinvestment of

dividends and capital gains. Performance data current to the most recent month end may be obtained by calling 866-690-ETFS (3837).

Important Information:

*The S-Network Space Index is a modified capitalization-weighted, free float- and space revenue percentage-adjusted equity index designed to serve as an equity benchmark for a globally traded portfolio of companies that are engaged in space-related business. It is not possible to invest in an index.

**As of January 7th, 2026, AST SpaceMobile (ASTS) was a 4.98% holding, BlackSky (BKSX) was a 1.19% holding, Intuitive Machines (LUNR) was a 3.31% holding, Lockheed Martin (LMT) was a 2.37% holding, Northrop Grumman (NOC) was a 2.36% holding, Rocket Lab (RKLB) was a 5.87% holding, Planet Labs (PL) was a 5.42% holding, Virgin Galactic (SPCE) was a 0.34% holding, Viasat (VSAT) was a 4.92% holding in the Procure Space ETF® (NASDAQ: UFO).*

For a complete list of holdings in UFO, visit: <https://procureetfs.com/ufo/>. Fund holdings and sector allocations are subject to change at any time and should not be considered a recommendation to buy or sell any security.

Please consider the Fund's investment objectives, risks, and charges and expenses carefully before you invest. This and other important information is contained in the Fund's summary prospectus and prospectus, which can be obtained by visiting procureetfs.com. Read carefully before you invest.

Investing involves risk. Principal loss is possible. The Fund is also subject to the following risks: Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the funds. Brokerage commissions will reduce returns.

Aerospace and defense companies can be significantly affected by government aerospace and defense regulation and spending policies. The exploration of space by private industry and the harvesting of space assets is a business based in future and is witnessing new entrants into the market. Investments in the Fund will be riskier than traditional investments in established industry sectors. The Fund is considered to be concentrated in securities of companies that operate or utilize satellites which are subject to manufacturing delays, launch delays or failures, and operational and environmental risks that could limit their ability to utilize the satellites needed to deliver services to customers. Investing in foreign securities are volatile, harder to price, and less liquid than U.S. securities. Securities of small- and mid-capitalization companies may experience much more price volatility, greater spreads between their bid and ask prices and significantly lower trading volumes than securities issued by large, more established companies. The Fund is not actively managed so it would not take defensive positions in declining markets unless such positions are reflected in the underlying index. Please refer to the summary prospectus for a more detailed explanation of the Funds' principal risks. It is not possible to invest in an index.

UFO is distributed by Quasar Distributors LLC.
